**Public Information 9/8/20**

**IR Perimeter 9/6/20 @ 2202 7,138 ac.**

Datum NAD83

0 0.5 1 1.5 2 Miles

NB 9/7/20 2130

The map displays a topographic representation of the Bridger Foothills area in Montana. A red line delineates the uncontrolled fire edge, while a pink shaded region indicates the overall fire perimeter. The area is divided into several management units: Div A, Div D, Div H, Div Y, Branch I, Branch III, and BRIDGE MTNS. Key geographical features include Saddle Peak, Baldy Mountain, and Green Mountain. Water bodies such as Cherry River, Lyman Cr Res, and various creeks (e.g., Cottonwood, Schafer, Bostwick) are shown. Infrastructure like roads (e.g., N 19th Ave, N 7th Ave) and trails are also marked. A legend in the bottom right corner defines symbols for Division Break, Branch Break, Uncontrolled Fire Edge, and Fire Perimeter. A title block in the top left provides project details and a scale bar.
